

Steam up your marketing and engage the **over 200,000** visitors that came to the Chamber website last year with a

CHAMBER *mini-site*s

What is a Chamber Mini-Site?

A mini-site is a small Web site with a narrow subject/focus or few pages that is sometimes a section in a larger Web site. The Chamber Mini-Site is an easy-to-use, 6-page website for your business, integrated right into the Chamber of Commerce website.

Why do I need one?

Bellingham.com consistently receives **over 15,000 website visitors** per month looking for products and services in our community. When you have a Mini-Site, they can find out more than just your company name and phone number. Mini-sites are a great marketing resource that will allow you to create Chamber specific coupons, promotions and information. Also having links from a mini-site to your actual website helps your website be found in the major search engines.

For your convenience, we are offering 3 complete packages plus all services a la' carte.
